

## Automatic Cell Counter

Suitable for counting mammalian and other cells

Specifications:

- Counting time :  $\leq 30$  Secs
- Cell Concentration Range:  $5 \times 10^4$  to  $1 \times 10^7$
- Sample chamber volume: 10 ul
- Cell diameter range: 5 to 60 microns
- Should be capable of storing data of 100 or more specimens
- Dilution calculation
- Viability calculation
- Display of Cells image.
- Printer port
- USB connectivity
- Trypan Blue compatibility
