Corrigendum -- Change of Specification

Please refer NIAB Tender Details as follows.

Tender ID : 2018_DBTEC_409221_1

Tender Reference Number : NIAB/SP/2018-19/34

Tender Title : Genotyping System

The following changes may please be noted before submission of bids with respect to the tender details mentioned above.

Change in specifications

Please find below (Annexure -1) changes in specification for "High Throughput automated array scanner" and bid must be submitted accordingly.

Rest of the tender conditions remains same.

Manager (S&P)

NIAB-Hyderabad

Date:- 04/12/2018

Change of specifications for “High Throughput automated array scanner”

Annexure -1

Specification NO.	Existing Specification in Tender	Modified Specification
2. Page No. 26	Technology should be competent to perform major applications like, genome-wide, targeted genotyping, whole-Transcript Expression Analysis, indels and miRNA analysis.	Technology should be competent to perform major applications like, genome-wide, targeted genotyping, indels etc.
3. Page No. 26	Built in, Industry standard platform with resolution of 1 micron or better.	Built in, Industry standard platform with resolution of < 5 micron.
6. Page No. 26	Technology should have array formats of 16, 24, 96, mini 96,384 for high throughput processing.	Technology should have array formats of 16, 24, 96 /mini 96 /384 for high throughput processing.
